

## Patent prosecution efforts in Everett Robinson's history

The following are some publicly-known patent prosecution matters in which Mr. Robinson significantly participated, as of 2013. (This information can be found on [uspto.gov](http://uspto.gov); other work can be found in other locations or in many cases remains confidential.)

### U.S. patents issued for which Mr. Robinson exercised responsibility:

U.S. Patent No.	Title	Date Issued	Technology	Involvement
8,566,419	Systems and Methods for Enhanced User Communications	Oct. 22, 2013	Call-center systems	Prosecuted case written by another to issuance
8,528,761	Launchable Beverage Container Concepts	Sept. 15, 2013	Blow-molded plastic containers	Authored initial application, conducted most of prosecution
8,510,382	Apparatus, System and Method for Responding to Web Form Inquiries	Aug. 13, 2013	Marketing, Internet and computer systems	Prosecuted case written by another to issuance
8,457,614	Wireless multi-unit conference phone	June 4, 2013	Teleconferencing Electronics	Authored initial application, conducted initial prosecution
8,438,475	Systems and Methods for Producing User-Configurable Accented Presentations	May 7, 2013	Scrapbooking Software	Prepared and filed application, conducted most of prosecution
8,325,738	Apparatus System and Method for Web-Based Phone Services	Dec. 4, 2012	Call-center systems	Prosecuted case written by another to issuance
8,078,605	User-Specific Contact Apparatus and Method	Dec. 13, 2011	Marketing / contact systems	Prosecuted case written by another to issuance
8,069,206	System and method for real-time feedback with conservative network usage in a teleconferencing system	Nov. 29, 2011	Teleconferencing Electronics	Authored initial application, conducted initial prosecution
8,031,853	Multi-pod conference systems	Oct. 4, 2011	Speakerphones	Wrote and filed application, prosecuted case prior to company merger

8,027,486	Probabilistic ringing feedback detector with frequency identification enhancement	Sept. 27, 2011	Speakerphones	Wrote and filed application, prosecuted case prior to company merger
8,019,076	Portable speakerphone device and subsystem utilizing false doubletalk detection	Sept. 13, 2011	Speakerphones	Wrote and filed application, prosecuted case prior to company merger
8,010,961	Data Layer Prioritization in an Application Layered System	Aug. 30, 2011	Computer Operating Systems	Authored and filed case
7,970,789	Sublayered application layered system	June 28, 2011	Computer Operating Systems	Authored specification of parent case
7,945,897	Method and system for running an application in a clean operating environment using a layered computing system	May 17, 2011	Computer Operating Systems	Authored specification of parent case
7,937,583	Method of aggregating multiple certificate authority services	May 3, 2011	Networking/ Digital Certificates	Authored specification, completed prosecution
7,916,849	Systems and methods for managing the gating of microphones in a multi-pod conference system	March 29, 2011	Teleconferencing Electronics	Authored initial application, conducted initial prosecution
7,886,291	Layer Typed Prioritizing Application Layered Systems	Feb. 8, 2011	Computer Operating Systems	Wrote and filed application
7,886,267	Multiple-developer architecture for facilitating the localization of software applications	Feb. 8, 2011	Computer Operating Systems	Wrote and filed application
7,877,413	Path variablizing layered system	Jan. 25, 2011	Computer Operating Systems	Wrote and filed application
7,864,937	Common control of an electronic multi-pod conferencing system	Jan. 4, 2011	Teleconferencing Electronics	Authored specification, completed prosecution
7,756,118	Video switching system utilizing a prioritized common network	July 13, 2010	Video Production Systems	All
7,698,549	Program product for unified certificate requests from certificate authorities	Apr. 13, 2010	Networking/ Digital Certificates	Authored specification, completed prosecution

7,665,405	Force Deflector	Feb. 23, 2010	Security Safes	Authored specification, completed prosecution
7,653,810	Method to automate the renewal of digital certificates	Jan. 26, 2010	Networking/ Digital Certificates	Authored specification, completed prosecution
7,650,497	Automated digital certificate renewer	Jan. 19, 2010	Networking/ Digital Certificates	Authored specification, completed prosecution
7,650,496	Renewal product for digital certificates	Jan. 19, 2010	Networking/ Digital Certificates	Authored specification, completed prosecution
7,634,563	System and method for correlating and diagnosing system component performance data	Dec. 15, 2009	Computer Operating Systems	Wrote and filed application
7,620,956	Portable memory storage devices with application layers	Nov. 17, 2009	Computer Operating Systems	Wrote and filed application
7,568,095	Method of aggregating multiple certificate authority services	July 28, 2009	Networking/ Digital Certificates	Authored specification, completed prosecution
7,549,164	Intrusion protection system utilizing layers and triggers	June 16, 2009	Computer Operating Systems	Wrote and filed application
7,542,988	File type associative application layered system	June 2, 2009	Computer Operating Systems	Wrote and filed application
7,519,963	Layered computing systems and methods with location exclusions	Apr. 14, 2009	Computer Operating Systems	Wrote and filed application
7,512,977	Intrusion protection system utilizing layers	Mar. 31, 2009	Computer Operating Systems	Wrote and filed parent application
7,496,931	Portable memory storage devices containing public context application layers	Feb. 24, 2009	Computer Operating Systems	Wrote and filed application
7,480,502	Wireless communications device with reflective interference immunity	Jan. 20, 2009	Wireless Communications/ Antenna Design	All
7,461,096	Weighted prioritizing layered computing system	Dec. 2, 2008	Computer Operating Systems	Wrote and filed parent application
7,461,086	Run-time application installation application layered system	Dec. 2, 2008	Computer Operating Systems	Wrote and filed application

7,446,714	Anti-reflective interference antennas with radially-oriented elements	Nov. 4, 2008	Wireless Communications/ Antenna Design	All
7,418,597	Apparatus for accepting certificate requests and submission to multiple certificate authorities	Aug. 26, 2008	Networking/ Digital Certificate	All
7,414,595	Virtual mosaic wide field of view display system	Aug. 19, 2008	Computer Displays	Completed prosecution
7,333,068	Planar anti-reflective interference antennas with extra-planar element extensions	Feb. 19, 2008	Wireless Communications/ Antenna Design	All
D556,189	Telephone conferencing device	Nov. 27, 2007	Housing Design	All
7,287,444	Transmission pressure modulation by orificed check valve	Oct. 30, 2007	Automotive Automatic Transmissions	All
7,251,870	Casket memorial drape and display	Aug. 7, 2007	Casket Ornamentation	All
D545,808	Personal speakerphone device	July 3, 2007	Housing Design	All
D545,807	Personal speakerphone device	July 3, 2007	Housing Design	All
D545,806	Personal speakerphone device	July 3, 2007	Housing Design	All
D545,805	Personal speakerphone device	July 3, 2007	Housing Design	All
D545,295	Personal speakerphone device	June 26, 2007	Housing Design	All
D539,274	Telephone conferencing device	Mar. 7, 2007	Housing design	All
7,165,260	Layered computing systems and methods for insecure environments	Jan. 16, 2007	Computer Operating Systems	All
7,162,724	Layered computing systems and methods	Jan. 9, 2007	Computer Operating Systems	All
7,149,189	Network data retrieval and filter systems and methods	Dec. 12, 2006	Networking analysis	Wrote and filed application
D531,999	Telephone conferencing device	Oct. 25, 2006	Housing design	All
7,117,495	Systems and methods for the creation of software packages using layered systems	Oct. 3, 2006	Computer Operating Systems	All

7,047,297	Heirarchically organizing network data collected from full time recording machines and efficiently filtering the same	May 16, 2006	Networking analysis	Wrote and filed the application
6,987,332	Power conditioner and backup for security scanning equipment	Jan. 17, 2006	Power Electronics	All
6,978,115	Method and system for training in an adaptive manner	Dec. 20, 2005	Computer Instructional Systems	Completed prosecution after final rejection
6,965,077	Article of manufacture for reinforcing a ceiling electrical box with fixture support	Nov. 15, 2005	Mechanical	Authored specification, completed prosecution
6,923,138	Boat trailering system with self-alignment and latching	Aug. 2, 2005	Mechanical	All
6,909,045	Article of manufacture for reinforcing a ceiling electrical box	June 21, 2005	Mechanical	Authored specification, completed prosecution
6,881,900	Ceiling box safety mounting bracket	Apr. 19, 2005	Mechanical	Authored specification, completed prosecution
6,862,609	Redundant storage for mulitple processors in a ring network	Mar. 1, 2005	Hard drive interfaces	Authored specification, completed prosecution
6,795,895	Dual axis RAID system for enhanced bandwidth and reliability	Sept. 21, 2004	Hard drive interfaces	Authored specification, completed prosecution
6,581,103	Method for Internet radio broadcasting including listener requests of audio and/or video files with input dedications	June 17, 2003	Internet radio	Completed prosecution
6,540,651	Apparatus and methods for exercising body appendages	Apr. 1, 2003	Machinery for Physical Therapy	Completed prosecution after rejection
5,757,368	System and method for extending the drag function of a computer pointing device	May 26, 1998	Computer touchpads	Inventor/developer

**Published U.S. patent applications for which Mr. Robinson exercised responsibility, apart from applications that issued as the patents above:**

<b>U.S. Patent Publ. No.</b>	<b>Title</b>	<b>Date Filed</b>	<b>Technology</b>	<b>Involvement</b>
US2002-0091815	Methods for enterprise management from a central location using intermediate systems	Jan. 10, 2002	Computer systems	Authored specification, continued prosecution
US2002-0091824	Intermediate systems for enterprise management from a central location	Jan. 10, 2002	Computer systems	Authored specification, continued prosecution
US2002-0091944	Reporting and maintenance systems for enterprise management from a central location	Jan. 10, 2002	Computer systems	Authored specification, continued prosecution
US2002-0188568	Systems and methods of containing and accessing generic policy	Jan. 8, 2002	Computer systems	Authored specification, continued prosecution
US2003-0039881	Battery accessible modules for rack mount systems	Aug. 21, 2002	Power Electronics	All
US2003-0225919	Apparatuses for digital multimedia transmission with receiver requests	Mar. 25, 2003	Internet Radio	All
US2004-0064371	On-line registration system and method	Sept. 30, 2003	Internet Commerce	Continued prosecution
US2004-0155603	Direct current gas discharge lighting systems with arc suppression	Oct. 23, 2003	Lighting Electronics	All
US2004-0196594	Flexible Media Thin-Film Slider with Wear Resistent Extension	Dec. 23, 2003	Computer storage media devices	Prepared and filed application
US2005-0027610	Electronic commerce systems and methods providing unified checkout steps	Apr. 30, 2004	Internet Commerce	All
US2005-0027611	Electronic commerce systems and methods providing multiple-vendor searches	Apr. 30, 2004	Internet Commerce	All
US2005-0051208	System for transferring heat in a thermoelectric generator system	June 17, 2004	Power Electronics	All
US2005-0071630	Processing apparatus for monitoring and renewing digital certificates	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0074124	Management of SSL/TLS certificates	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution

US2005-0076199	Automated SSL certificate installers	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0076200	Method for discovering digital certificates in a network	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0076201	System for discovering SSL-enabled network devices and certificates	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0076202	Program product for discovering enterprise certificates	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0076203	Product for managing and monitoring digital certificates	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0076204	Apparatuses for authenticating client devices with client certificate management	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0078830	Method for automated installation of digital certificates to network servers	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0081026	Software product for installing SSL certificates to SSL-enabable devices	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2005-0149515	Method for searching for and transmitting songs with accompanying listener messages	Feb. 25, 2005	Internet Radio	All
US2005-0271220	Virtual microphones in electronic conferencing systems	June 2, 2004	Teleconferencing Electronics	Authored initial filing and conducted early prosecution
US2006-0015716	Program product for maintaining certificate on client network devices	Aug. 13, 2004	Networking/ Digital Certificates	Authored specification, continued prosecution
US2006-0086798	Deferred email message system and service	Oct. 21, 2005	Email/ Internetworking	All
US2006-0086799	Email client and methods for commanding later re-delivery of messages	Oct. 21, 2005	Email/ Internetworking	All
US2006-0207235	Mower handlebar-attachable string trimmer wand	Mar. 15, 2006	Consumer Electronics	All
US2006-0226707	Power conditioner and backup for security scanning equipment	Jan. 16, 2006	Power Electronics	All
US2006-0255552	Stunt snow sled	Apr. 30, 2006	Sporting Products	All

US2007-0110356	Wavelength Monitoring System	Dec. 20, 2006	Radio Waveguides	Nationalization from PCT
US2007-0130775	Fingernail saving nut tool	Apr. 19, 2006	Culinary Utensils	All
US2007-0264167	Receptacle for receiving a thin-walled flexible cup and article organizers	May 12, 2006	Consumer Products	All
US2008-0164763	Power conditioner and backup for security scanning equipment	Dec. 26, 2007	Power Electronics	All
US2009-0034786	Application for Non-Display of Images Having Adverse Content Categorizations	June 2, 2008	Digital Image Processing	All
US2009-0041294	System for Applying Content Categorizations of Images	June 2, 2008	Digital Image Processing	All
US2009-0199910	Robust water level control valve	Aug. 8, 2008	Mechanical	All
US2009-0240684	Image Content Categorization Database	June 2, 2008	Digital Image Processing	All
US2009-0298383	Thin-walled blow-formed tossable bottle with reinforced intra-fin cavities	June 5, 2009	Beverage Containers	All
US2009-0301991	Thin-walled container with sidewall protrusions and reinforced cavities	June 5, 2009	Beverage Containers	All
US2010-0271287	Dual-display Transportable Media Cart	April 24, 2010	Computer display stands	Prepared and filed application
US2010-0299612	Methods for Producing User-Configurable Accented Presentations	July 29, 2010	Scrapbooking Software	Prepared and filed application, conducted initial prosecution
US2011-0168658	Straight-Finned Flying Beverage Bottles	July 17, 2010	Blow-molded plastic (pop) bottles	All
US2011-0168663	Angled-Finned Flying Beverage Bottles	July 17, 2010	Blow-molded plastic (pop) bottles	All
US2011-0168664	Finned Beverage Containers Having Narrowed Portion	July 17, 2010	Blow-molded plastic (pop) bottles	All
US2011-0174756	Fin-Standing Aerodynamic Beverage Container	July 17, 2010	Blow-molded plastic (pop) bottles	All
US2011-0174757	Flying Beverage Container Having Attachable Reversible Finned Section	July 17, 2010	Blow-molded plastic (pop) bottles	All
US2011-0174766	Flying Beverage Container with Impact Crush Zone	July 17, 2010	Blow-molded plastic (pop) bottles	All

US2011-0174767	Unitary Section Having Nose and Fins to Render a Beverage Bottle Aerodynamic	July 17, 2010	Blow-molded plastic (pop) bottles	All
US2011-0174768	Aerodynamic Beverage Container Having a Nose that Doubles as a Stand	July 17, 2010	Blow-molded plastic (pop) bottles	All
US2012-0025073	Orientation Imaging Using Wide Angle Convergent Beam Diffraction in Transmission Electron Microscopy	July 27, 2011	Electron Microscopy	Assisted in prosecution in mid-2013
US2012-0209829	Systems and Methods for Searching for and Translating Real Estate Descriptions from Diverse Sources Utilizing an Operator-Based Product Definition	Nov. 4, 2011	Information Systems	All
US2012-0209837	Systems and Methods for Searching, Prioritizing Between, and Producing a Conglomerating of Real Estate Descriptions in a Common Format	Nov. 4, 2011	Information Systems	All
US2012-0209875	System and Methods for Searching and Producing a Conglomerating of Real Estate Descriptions in a Common Format	Nov. 4, 2011	Information Systems	All
US2012-0209876	Systems and Methods for Searching for and Translating Real Estate Descriptions from Diverse Sources Utilizing a Consumer-Based Product Definition	Nov. 4, 2011	Information Systems	All
US2013-0121484	Call Center Input/Output Agent Utilization Arbitration System	May 9, 2012	Call-Center Systems	All

**Publicly available patent applications for which Mr. Robinson exercised responsibility, apart from the ones above:**

U.S. Patent Appl. No.	Title	Date Filed	Technology	Involvement
09/383,279	Electronic commerce system and method	Aug. 26, 1999	Internet Commerce	Continued prosecution
10/339,251	Adaptive control network for consumer electronics	Jan. 8, 2003	Consumer Electronics	Continued prosecution
11/324,571	Process tracking application layered system	Jan. 3, 2006	Computer Operating Systems	Wrote and filed application, conducted initial prosecution
